

# Booz Allen

---

January 22, 2026

To Whom It May Concern,

I'm happy to recommend Andrew Burch, whom I managed as part of my cybersecurity infrastructure team at Booz Allen Hamilton, where he served as an Automation and Security Engineer.

During our time working together, Andrew consistently demonstrated strong problem-solving skills and an ability to translate operational pain points into effective automation solutions. He took ownership of reducing repetitive manual tasks and helped improve overall team efficiency through well-structured scripts and thoughtful automation approaches.

Beyond technical capability, Andrew was reliable, receptive to feedback, and worked well across the team. He approached automation with an understanding of operational context rather than treating it as a purely technical exercise, which made his contributions particularly valuable.

I would confidently recommend Andrew for roles that involve automation, scripting, and improving operational efficiency, especially in environments that value initiative and continuous improvement.

Please feel free to reach out if you'd like additional context.

Sincerely,

Janette Kerr | 703-507-1926  
Former Manager, Booz Allen
